

Full Name: Dr Jenni Noble

Designation: General Manager, Medscheme

Dr Jenni Noble currently holds the position of General Manager in Medscheme's Strategic Advisory Unit. She is responsible for the strategy and purchasing of healthcare services on behalf of Medscheme's clients. Her specific focus is on hospital, day clinic, subacute, mental health, dialysis and radiology services.

Jenni is a medical doctor (UCT) by training. She also holds a Masters in Public Health, Health Economics (2015) from UCT.

She started her career as a family practitioner, working internationally in Canada, New Zealand and the UK before joining a GP practice in Johannesburg. For many years she kept a hand in orthopaedic surgery, with a focus on knee and shoulder procedures.

In 1996, she joined MediKredit where she initially developed its disease management programmes. As MediKredit's Medical Director, she was responsible for clinical policy and the creation of MediKredit's clinical intelligence including databases and systems intelligence.

She joined Medscheme in 2012 as General Manager of Provider Relations, focusing on the strategic sourcing of healthcare services on behalf of Medscheme's clients.
