

Full Name: Shivani Ranchod

Designation: Healthcare Actuary, Insight Actuaries and Consultants and Senior Lecturer, University of Cape Town

Shivani is a healthcare actuary at Insight Actuaries and Consultants and a part-time academic at the University of Cape Town (UCT). She has wide-ranging technical, strategic and policy-related experience across the healthcare system. Over the last 16 years, she has worked and consulted for, amongst others, government, regulators, medical schemes, managed care organisations and healthcare providers.

She is passionate about strengthening the healthcare system, and at present her energy is focussed on work in the public sector. As part of this role Shivani has been appointed to the Government Technical Advisory Centre (GTAC). She was previously at UCT for ten years, including a stint as head of the Actuarial Science programme. Her current role at UCT is related to research and post-graduate supervision. Her research interests span the areas of healthcare, education and transformation.
