

Clinton Philip

Senior Specialist Product Management, Altron

With over three decades of leadership in Medical IT for Primary Healthcare and more than a decade specialising in Occupational Health and Oncology, Clinton Philip brings extensive experience and a deep understanding of the healthcare technology landscape.

As a Certified Scrum Product Owner (CSPO) and FBPM, Clinton is passionate about driving innovation, transformation, and meaningful digital change across Altron HealthTech's Enterprise and Oncology business solutions. Oncology is more than an area of focus; it is a genuine passion, driven by the opportunity to advance digital solutions that empower healthcare practices, streamline patient care, connect healthcare ecosystems, and ultimately improve patient experiences and outcomes.

Throughout his career, Clinton has remained committed to modernisation, integration, innovation, and building technology platforms that are not only fit for today but help shape the future of healthcare delivery. For him, healthcare technology is not simply about systems and software, but about creating connected solutions that make a meaningful difference to clinicians, practices, patients, and the broader healthcare ecosystem.

BUILDING HEALTH, TOGETHER.
