

Professor Keymanthri Moodley

Professor Keymanthri Moodley is a specialist family physician, bioethicist, and Emeritus Professor at Stellenbosch University, as well as an Adjunct Professor at the University of North Carolina-Chapel Hill, USA. She has led five NIH-funded research projects, has extensive clinical trial experience, and has spent more than 20 years training researchers in Good Clinical Practice and research ethics while serving on numerous ethics and data safety monitoring boards.

An NRF-rated researcher and member of the Academy of Science of South Africa (ASSAf), Professor Moodley has authored more than 150 publications. In 2026, she was appointed Associate Editor of the Journal of Medical Ethics (BMJ) and serves on the Ethics Advisory Board of UNITE4TB.

Professor Moodley has worked with the World Health Organization (WHO) for over 15 years and currently co-chairs the WHO Working Group on Clinical Ethics and the WHO Ethics and AI Expert Group. Her research focuses on ethical, legal and social issues in emerging health technologies, including Big Data and artificial intelligence in Africa.

BUILDING HEALTH, TOGETHER.

HASA QUALITY SUMMIT AND CONFERENCE 2026
